

VISITOR'S MANAGEMENT SYSTEM

GUEST WHO
VISITOR'S MANAGEMENT SYSTEM

First impressions last and your reception area is usually the first interaction visitors, clients and other professionals have with your business.

Providing digital registration and fast access help you build a professional, tech-savvy reputation and makes sure you have an extensive record of who enters your premises.

Key Features

First Impression

Create a welcome that stands out

Safety & Security

Protect your people, property and data

Meet Compliance

Comply with health & safety & data protection regulations

Real-time logs

Access visitor's details any time, anywhere

Boost Efficiency

Increase reception productivity by saving staff time

Host Notification

Receive instant notifications when your visitor arrives

HOW IT WORKS

- 1 Quick and easy check-in process**
Your visitors are presented with one touch-screen devices (such as tablets) to enter their details and who they are visiting.
- 2 Digital Visitors' agreement**
Present your visitor with digital agreements to read, accept and sign to keep each party safe.
- 3 Visitors badge**
Instantly provide visitors with a badge that includes visitors' name and other relevant information, enhancing security and guest identification.
- 4 Instant Notification**
The host will instantly get a notification about who is there to visit them, and where they are waiting
- 5 Visitors Analytics**
Allows you to view who is on-site in real-time, report on historical visitor details and understand why guests visit or reasons for high traffic thus better plan your staff rosters.
